Compensation phase ³ available	Yes, ex factory	Yes ²		Yes, ex factory	Yes ²				
Temperature compensated charging	Yes, with the optional sensor T-Sense 1								
Power supply voltage	13,5 Volt			27,0 Volt					
Start up voltage	1 Volt			2 Volt					
GENERAL									
Features and protections	Reverse polarisation, short circuit, temperature, temperaturesense monitoring, inputvoltage, inputvoltage monitoring, softstart, voltage drop compensation, current limitation, battery voltage monitoring, charge time monitoring								
Battery connection	Fixed cable, 2,5mmq, 1m	Fixed cable, 4mmq, 1m	Fixed cable, 2,5mmq, 1m						
Ideal ambient temperature	0-25°C								
Cooling	Convection	Fan	Convection	Fan					
Galvanically isolated	Yes								
Housing	Anodized aluminium								
Protection degree	IP 205								
Weight	1 kg	1,25 kg	1 kg	1,25 kg					
Dimensions housing	20,4x13,3x5,9 cm	23,3x13,3x5,9 cm	20,4x13,3x5,9 cm	23,3x13,3x5,9 cm					

Notes: all above specifications are at 25°C and 230Vac input

Data may change without notice

All voltages mentioned have a tolerance of 0.1 Volt for 12Vdc chargers and 0.2Volt for 24Volt chargers

¹ = factory setting² = These additional charging settings can be activated via an internal dip switch³ =extra charging phase for professional, heavily cyclical applications where the charging voltage increases to 15/16 Volt
